Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from an ‘intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting-into-question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

Keywords: psychopathy, hermeneutic, theory, meaning, ontology
Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a hermeneutic science
calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting.-

delinearity--for-cogency insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as a ‘driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/ing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if
not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In-the-bigger-scheme-of-things, it is herein contended that human social and institutional progress and development ‘is not contiguous as to the very inherent nature of any given institutionalised framework’ as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing <amplituding/-formative> wooden-language-⟨imbued–

as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently projected as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress); in so-doing apparently render human-subpotency/mortality bigger than existence-potency—sublimating—nascence,—disclosed—from—prospective—epistemic—digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception—as-of—ontological—bad-faith/inauthenticity/+ becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what

Such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one temporal interest or another. But the reality of that universal-transparency of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity-totalising–in-relative-ontological-completeness as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-unforegrounding-ment,-failing-prospectively-to-reflect-immanent–relative-unreflexivity/relative-reflexivity—ontological-contiguity not only as of wrong ontological-conception out of good-naturedness (failing ‘technical’ ontological-good-faith/authenticity as from ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation’ -<existentially-veridical–′attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, the ‘cinglé’ perceives meaning as a ‘hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation’ -of-′attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism where we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ -of-′attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism -as-of-conviction,-in-profound-supererogation’ -<existentially-veridical–′attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology <of-preconverging-existential-extrication-as-of-existential-unthought>
are subject to ‘meaningfulness-and-teleology’ and ‘neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social "universal-transparency" that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology’ thus enabling the ontological-normalcy/relative-ontological-completeness of reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that the ‘social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising=axiomatising=referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of—meaningfulness-and-teleology individuation without temporality/shortness-of-register-of—meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived-perversion-of-reference-of-thought—<as-preconvergingly-apriorising=axiomatising=referencing—in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>—as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation—non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness wooden-language (imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’ -with-regards-to-prospective-apriorising-implications)> in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation
meaningfulness-and-teleology 56 neutronising’ to be able to then reveal, construe and uphold positivistic Being and \*meaningfulness-and-teleology 59, and this equally applies with regards to overcoming our ‘procrypticism–or–disjointedness-as-of-59 reference-of-thought meaninglessness-and-teleology 99 neutronising’ to attain futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaninglessness-and-teleology 99 as of prospective notional–16 deprocrypticism Being and meaninglessness-and-teleology 99. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neutronising, qualifying neutronising, tendentious neutronising and impulsive neutronising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness\* of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative–epistemicity>totalising–ratiocontiguity/ratiocination-as-referentialism–‘implicated_attendant–ontological-contiguity’–educed–existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity–contiguity–<imbued–notional–cogency>\* as of their respective epistemic-abnormalcy/preconvergence\* /relative-ontological-incompleteness\* of reference-of-thought. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-induced)- reference-of-thought—devolving-teleological-de-

Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the ⟨warped-consciousness⟩neuterising-induced⟩reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-interessory-notions/notional–referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all ⟨cumulating/recomposuring–attendant–ontological-contiguity⟩-successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance ⟨including-virtue-as-ontology⟩/morality/ethics/justice/etc. across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting, individuals cannot all of a sudden start thinking in terms–as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; given that

Inherently, such a ‘psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supererogatory–de-mentativity notion as of the (given consciousness’s neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought of meaningfulness-and-teleology which establishes its ‘grounded knowledge construct’, and so because of its denaturing of the prior institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology by way of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—

Such that such a ‘psychoanalytic-unshackling commitment’ cannot be construed in the same terms–as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-
mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness of reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness of reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought, and thus rather implies an de-mentation \(\langle\text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics}\rangle\). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct \(\langle\text{occlusive-consciousness neuterising-induced}\rangle\)’ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct \(\langle\text{warped-or-preclusive-consciousness neuterising-induced}\rangle\)’ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ as of prospective notional~1 deprocrypticism axiomatic-construct \(\langle\text{protensive-consciousness deneuterising induced}\rangle\)’ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘positivism–procrypticism axiomatic-construct \(\langle\text{occlusive-consciousness neuterising-induced}\rangle\)’ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness. It is important to grasp in both instances that such psychoanalytic-unshackling
commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrysticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which will just induce their mental-dispositions for non-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional—deprocrysticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity construal highlights the relative-unreflexivity/relative-reflexivity—ontological-contiguity of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging—de-mentating/structuring/paradigmizing dynamic relationship, conceptual-patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enablement epistemicty causality—relative-unreflexivity/relative-reflexivity—ontological-contiguity interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual-patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere preconverging/postconverging—de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing—of ‘prospectively— implicated attendant—ontological-contiguity’—educed—existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity—contiguity—<imbued—notional—cogency>’—constitutedness—in preconverging entailment rather than striving to expand the transcendental-enabling/sublimating/supererogatory—de-mentativity epistemicty causality—as-to-projective-totalitative—implications-of—prospective—nonpresencing—for-explicating—relative-unreflexivity/relative-reflexivity—ontological—contiguity existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual-patterning is easily overlook mainly as
philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual-patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual-patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual-patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual-patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-relative-unreflexivity/relative-reflexivity—ontological-contiguity nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed/re-ontologising—conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity amplituding/formative-

For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology’ of ‘the-very-same physics totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness of less ontological-performance —<including-virtue-as-ontology>/morality/ethics/justice/etc. of ‘the-very-same physics totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, while with human limited-mentation-capacity-deepening—as-subjecting-limitedness/human-subpotency-to—‘educed-unlimitedness/existence-sublimating—nascence’ the theory-of-relativity-together-with-

things with the latter axiomatic-construct more-profound/grander meaningfulness-and-

However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for 
breaking away from a prior centered–epistemic-totalisation of a very same 
amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-

reference-of-thought, construed as ‘ reference-of-thought—devolving-teleological-de-

been the way Derridean deconstruction has been commonly applied as in effect all our

Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies apriorising/axiomatising/referencing-{of-‘prospectively-implicated-attendant-ontological-contiguity’~educated–
existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity-contiguity-
<imbued-notional-cogency>’ conflatedness in {preconverging-ment-by–
postconverging-entailment in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative-epistemicity>-totalising-self-referencing-
syncretising/circularity/interiorising/akrasiac-drag, as of beyond-the-consciousness-awareness-teleology -<of-preconverging-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought-as-to-postconverging-de-mentating/structuring/paradigming implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-
thought which is in \textit{amplituding-formative–epistemicity}\textsuperscript{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\textsuperscript{34} with its ultimate crossgenerational collapsing for the prospective institutionalisation’s \textsuperscript{8}reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social \textsuperscript{103}universal-transparency \textsuperscript{11} \{\textit{transparency-of-totalising-entailing.-as-to-entailing.|\textit{amplituding-formative–epistemicity}\textsuperscript{totalising–in-relative-ontological-completeness }\} as of prospective relative-ontological-completeness\textsuperscript{7}–of\textsuperscript{8}reference-of-thought of the prospective institutionalisation’s \textsuperscript{83}reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity—as subjecting ‘\textit{duced-unlimitedness/existence-sublimating–nascence}’ to limitedness/human-subpotency conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\textsuperscript{88} as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity\textsuperscript{63}–\textit{between–prior-shallow-supererogation \textit{of-mentally-aestheticised~preconverging/dementing ~qualia-schema_and_prospective-profound-supererogation ~of-mentally-aestheticised~postconverging/dialectical-thinking ~qualia-schema> in apriorising/axiomatising/referencing- \{of-‘prospectively\_implicated\_attendant\_ontological-contiguity ’~\textit{educed–existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity–contiguity~<imbued–notional~cogency>’ \}~constitutedness ~\textit{in preconverging entailment}, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of
reality/ontological-veridicality, as to ‘human\textsuperscript{amplituding/}formative-epistemicity\textsuperscript{totalising--purview-of-construal}’ or \textsuperscript{amplituding/}formative-epistemicity\textsuperscript{totalising--devolved--purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of ‘meaningfulness-and-teleology’ of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity—as-subjecting ‘educed--unlimitedness/existence-sublimating--nascence’—to limitedness/human-subpotency supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation-and--existence—as-sublimating-withdrawal/unenframing/re-ontologising--elicited-from-prospective–profound-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied-prospective-aporeticism--overcoming/unovercoming” for human-subpotency possibilities for devolving ‘meaningfulness-and-teleology’ as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional--referential-notions/articulations/virtue, with increasing ontological-performance--<including-virtue-as-ontology>/morality/ethics/justice/etc. as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension
mathematics imply elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—

as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective
conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical
depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-
implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-
insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics
are construed practically as formalisations which are mainly as such constructs of
faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’
for the sake of succinctness, clarity and fungibility; however, without the implication of any
other inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of such
formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly
construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of
logic and mathematics transcendental-enabling/sublimating/supererogatory~de-mentativity’.
But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an
exercise of mathematical formalisation. The fact is that mathematics have always been
developed implicitly or explicitly in association with or inspired from the context as to
of other applied and transcendental-enabling/sublimating/supererogatory-de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics a ‘<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential—disontologising/re-ontologising—aporeticism—domain in question have to be critically developed as knowledge-reification—gesturing-and-accounting—of-epistemic–phenomenalism—<in-prospective_psychologismic~apriorising/axiomatising/referencing—{of—prospectively–implicited_attendant–ontological-contiguity ’~educed–existentialising/contextualising/textualising_‘intelligibility/epistemicity/reflexivity–contiguity–<imbued–notional~cogency>’—conflicatedness—in—{preconverging–ment–by—postconverging-entailment}> for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential—
phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially-<disontologising/re-ontologising—aporeticism> nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential-<disontologising/re-ontologising—aporeticism> sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential-<disontologising/re-ontologising—aporeticism> nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest~subpotency-{in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence} with regards to the relative-unreflexivity/relative-reflexivity—ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal/unenframing/re-ontologising,-elicited-from-prospective–profound-supererogation and this very insight about the ‘existentially-<disontologising/re-ontologising—aporeticism> nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially-<disontologising/re-ontologising—aporeticism> nominal supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting –for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on-the-other-hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting –for–conceptualisation’ is not construed as sublimating-validation in such domains where such

of mathematical equations’ without the prior insight about the physics domain-of-study and what
to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to
further develop their relevant branches of mathematics. Nor do even pure mathematicians just
go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight
and inspiration from existential-reality as transcendental-

classical character like statistical-constructs, quantum phenomena, black holes, etc. as to
existence—as-sublimating-withdrawal/unenframing/re-ontologising,-elicited-from-
prospective–profound-supererogation96. The naivety of logicism lies exactly in this respect of
construing formalisation as most of what is supposed to be achieved, and failing to grasp that
when it comes to social reality its own transcendental-enabling/sublimating/supererogatory–de-
mentativity has to be ‘creatively construed’, and this in-many-ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory—de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought-as-of-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human-amplituding/formative—epistemicity—totalising—purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—of-referencing—teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—

‘human—amplituding/formative—epistemicity—totalising—purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—of-referencing—teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—

The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought—devolving—teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness—of—reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional—deprocrypticism psychoanalytic-unshackling metaphysics-of-absence—(implicated—nonpresencing—perspective—ontological-normalcy/postconvergence—)} that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed—meaningfulness-and-teleology.

For instance, the cumulative/recomposing—attendant—ontological-contiguity—successive registry-worldviews/dimensions institutionalisations conceptualisation of ‘meaningfulness-and-teleology’ have arisen as secondnatured constructs that have substituted for their uninstitutionalised-threshold free-for-all framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—formativeness—as to eventualising—inkling-drive—or seeding—misprising—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating/supererogatory—de-

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaninglessness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness—of-reference-of-thought apriorising/axiomatising/referencing—{of—prospectively—implicated—attendant—ontological-contiguity}—educed—existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity—contiguity—<imbued—notional—cogency>’—constitutedness—in preconverging—entailment as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness—of-reference-of-thought is a preconverging/postconverging—de-mentative/structural/paradigmatic deficiency inducing the <amplituding-formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of \( meaningfulness-and-teleology \), with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then relative-unreflexivity/relative-reflexivity—ontological-contiguity ~ of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism—of-social-functioning-and-accordance integration as seconndnatured-institutionalisation as of human \( amplituding/formative–

Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory—de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is preconverging/postconverging—de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential—disontologising/re-ontologising—aporeticism possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of ‘meaningfulness-and-teleology’ within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential—disontologising/re-ontologising—aporeticism possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of ‘meaningfulness-and-teleology’ with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a
preconverging/postconverging–de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential <disontologising/re-ontologising—aporeticism> possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{99} within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{87}–of-\textsuperscript{88} reference-of-thought occurs because preconverging/postconverging–de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{99} given their supposedly coherent ontological-commitment –<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> as of more profound <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing.-for-explicating–relative-unreflexivity/relative-reflexivity—

Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of—meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought– categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and

generation perspective that the underlying human metaphoricity for transcendence-and-

associated with any external cultural diffusion. However, human metaphoricity as of cultural

Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional—firstnaturedness-formativeness—as to eventualising—inkling-drive or seeding-misprising—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological—reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity.

But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of reference-of-thought as of the prospective relative-ontological-completeness—of—reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness—of—reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional—firstnaturedness-formativeness—as to eventualising—inkling-drive or seeding-misprising—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medi evalism, and prospectively procrypticism—or—

Neuterisation\textsuperscript{59} of analysis as so articulated is effectively a deficient human mental-reflex as of its naïve predisposition to imply ‘equivalence of consideration’ without factoring prospective relative-ontological-completeness —of— reference-of-thought <amplituding/formative—epistemicity> causality —as—to—projective—totalitative—implications—of—prospective— nonpresencing,—for—explicating—relative—unreflexivity/relative—reflexivity—ontological—contiguity of differentiated axiomatic/ reference-of-thought teleological projection as of temporal teleologically-degraded—devolving—as—of—uninstitutionalised—threshold\textsuperscript{115} and intemporal elevated—devolving—as—of—prospectively—institutionalisation. positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the postconverging-de-
as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. As we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendent-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness-formativeness—as to eventualising–inkling–drive–or–seeding–misprising—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–
ontological-normalcy/postconvergence>’–existentialism-form-factor wherein institutionalising reference-of-thought–categorical-imperatives/axioms/registry-teleology are always subject at uninstitutionalised-threshold to their denaturing as of their <amplituding/formative> wooden-language ⟨imbued—temporal—mere-form/virtualities/derecification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩, as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Hence Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology given human limited-mentation-capacity—as-subjecting—‘educed-unlimitedness/existence—sublimating—nascence’ to limitedness/human-subpotency is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of’ <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩⟩ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal
value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} as improper and unqualified. This was to avoid a circularity of \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} but rather ontological-pertinence, and the point in reflecting holographically—<conjugatively-and-transfusively> the relative-unreflexivity/relative-reflexivity—ontological-contiguity ~of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}). Thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught
between the notion of sovereignty as allowing basic level of universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-
<amplituding/formative–epistemicity> causality as-to-projective-totalitave–implications-of-prospective–nonpresencing,-for-explicating–relative-unreflexivity/relative-reflexivity—ontological-contiguity –overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance–<including-virtue-as-ontology>–implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of
transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; – wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supernumerary-dementativity as to existence-potency—asublimating–nascence,—disclosed—from-prospective-epistemic-digression; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <amplituding/formative> wooden-language⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; –ultimately the very paradox of human <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag means that the human sovereign psyche is one that is geared to construe of ‘presence as all-
construct but as well an understanding of how such knowledge is instigated in society as part-and-parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/subliming/supererogatory-de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency-aponia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness-formativeness—as-to-eventualising-inkling-drive-or-seeding-misprising’—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor as of human limited-mentation-capacity—as-subjecting-‘educed-unlimitedness/existence-sublimating–nascence’—limitedness/human-subpotency. Thus in reflecting holographically-about the relative-unreflexivity/relative-reflexivity—ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—which-of-reaching-totalising-entailing—as-to-entailing—amplituding-formative-epistemicity—totalising—in-relative-ontological-completeness’. As it is the latter that induces that social positive-opportunism—of-social-functioning-and-accordance for deferential-formalisation-transference and institutional percolation-channelling—in-deferential-formalisation-transference, as of social deferential attribution of power for the beneficial effect of knowledge

Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the preconverging/postconverging—de-mentative/structural/paradigmatic lifetime ‘mental and existential—disontologising/re-ontologising—aporeticism—investment’ in the former, such that by-and-large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory—de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology—of—preconverging-existential-extrication-as-of—existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of preconverging-existential-extrication-as-of-existential-unthought, that is, knowledge related to as of the ‘mere positive-opportunism—of-social-functioning-and-accordance it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality /longness behind ‘knowledge invention’ that must be preserved and perpetuated as the ‘very core of knowledge’ and so to undermine knowledge denaturing , so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in postconverging—nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very
attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness reference-of-thought meaningfulness-and-teleology. fundamentally because the notionally inherent human capacity for aetiolisation/ontological-

This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-conjugatively-and-transfusively the relative-unreflexivity/relative-reflexivity—ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating—relative-unreflexivity/relative-reflexivity—ontological-contiguity induced positive-opportunism—of-social-functioning-and-accordance as of scientific, medical, technical advancements, free society, etc. shat leads to the crossgenerational collapsing of scholasticism. to human-subpotency as of its protensive nature as to coherent existential interpretation drawing out the full implications of human limited-mentation-capacity-deepening—as subjecting limitedness/human-subpotency to ‘educed-unlimitedness/existence-sublimating–nascence’ as of deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought as a projective–totalitative-implications conception and superseding presencing—absolutising-identitive-constitutedness naiveties as to the socially extended constructive construal of healthcare as more than just as of immediate disease/illness cause-and-effect implications). The latter as deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought as of its ‘ontological-completeness-of-reference-of-thought as to ontological-normalcy/postconvergence’ is the effective basis for evaluating the ontological-veracity of all preceding reference-of-thought as of its deneuterising—referentialism that breaks-down the various neuterising to their basic human limited-mentation-capacity—as subjecting ‘educed-unlimitedness/existence-sublimating–nascence’ to limitedness/human-subpotency dynamics implications. In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-‘epistemic-totality with recurrent-utter-uninstitutionalisation) circumscribing-as-‘epistemic-totality’-or-delineating-as-‘epistemic-totality’ existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology’ speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity.

It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting the ‘backdrop construed as human sublimation-educing—hermeneutic-textuality/reprojecting/supererogating/zeroing/re-acuting—

For instance, reflecting in an early hunter-gatherer society the ‘candid existential\textsuperscript{2}\textsuperscript{19} disontologising/re ontologising—aporeticism—expressiveness’ of how one is suffering from bad omen on the backdrop of its ‘recurrent-utter-uninstitutionalisation totalising/circumscribing/delineating \textsuperscript{21}amplituding/formative–epistemicity’ reference-of-thought- devolving—différance/internal-dialectics/difference-deferral’ construed as disambiguation its uninstitutionalised-threshold\textsuperscript{3}‘meaningfulness-and-teleology’\textsuperscript{9}. It should be noted that such a notional construct of episteme interpreted herein is implied as of dynamic social amplituding formative epistemicity totalising self referencing syncretising across the entire social spectrum as of notional episteme dynamically covering both informal institutional settings and formal institutional settings. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme preconverging/postconverging–de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually preconverging/postconverging–de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology undermining the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology ontological-performance–<including-virtue-as-ontology>/morality/ethics/justice/etc. turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance–<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human

imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory–de-mentativity causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating–relative-unreflexivity/relative-reflexivity—ontological-contiguity construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance - <including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a ‘same

parity of relative-unreflexivity/relative-reflexivity’ as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our \(<\text{amplituding/formative–epistemicity}>)\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human \(<\text{amplituding/formative–epistemicity}>)\text{totalising–thrownness-in-existence}\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance \(<\text{including-virtue-as-ontology}>)\) implies the need for a sound perpetuating construct of \(<\text{universal projection as intemporality}>)\text{-or-longness-of-register-of–meaningfulness-and-teleology}\) as the opportunity for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative \(<\text{universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing–<\text{amplituding/formative–epistemicity}>)\text{totalising–in-relative-ontological-completeness}\) thus hardly as of aetiologisation/ontological-escalation-<ontological-veridicality_commitment/otherliness_transcending/compulsions-encumbered_transcending>. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and
save the day but then such action is not dependable and the outcomes are unreliable as well
together with the possibility on occasion of wrong judgement and/or wrong action or usurpation;
thus the social construction of crime prevention needs an intellectualised social ‘response
construal’ mechanism of universal implication that ensures dependability of crime prevention
as of the foresight of law and policing management construed as of an intemporal-as-ontological
intellectual projection exercise. This same depth-of-thought is warranted across the dynamic
scope of the social including the political for true transcendental-enabling/sublimating/supererogatory-de-mentativity beyond normative conventioned
constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about
100000 years ago but the pervasive preconverging/postconverging-de-mentative/structural/paradigmatic determinism of the nation-state which became common just
about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary
construal’ and humankind’s apriorising/axiomatising/referencing-{of-‘prospectively-
implicated–attendant–ontological-contiguity ’—educated–
existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity–contiguity-
<imbued–notional–cogency>’ }—constitutedness —in—preconverging entailment to the notion
of nation-state seems to create an impasse for human Being-and-contemplative development.
Consider again the possibility capable of arising as of a ‘response construal’ as effectively
articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce
universal human meaningfulness-and-teleology but was caught up in the
<amplituding/formative–epistemicity>-totalising–thrownness-in-existence’ (I exist therefore
existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my
human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -
<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t
carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence (implicated-epistemic-veracity-of-nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩) as of notional-deprocripticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence ⟨implicated-‘nondescript/ignoreable–void ’-as-to- presencing—absolutising-identitive-constitutedness ⟩ framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the
radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supererogatory/de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory/de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to—‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory/de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory/de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory/de-mentativity rather as of ‘phenomenal-abtractiveness’ as the basis/grounding to then construe/conceptualise 56 meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abtractiveness conflates-in-effecting-wholeness-as-of-profundness-and-completeness-to—meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting’; given that it is consciousness that teleologically-registers/recognises phenomenal-abtractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-

epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential—disontologising/re-ontologising—aporeticism— situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential—disontologising/re-ontologising—aporeticism— import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially—disontologising/re-ontologising—aporeticism— present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by the ‘given social-setup underlying supposedly coherent ontological-commitment’—implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigmimg —as-being-as-of—existential-reality— for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the amplituding/formative—epistemicity—totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social ‘meaningfulness-and-teleology”, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential—disontologising/re-ontologising—aporeticism— development stages as of the dynamics of social-construct existential—disontologising/re-ontologising—aporeticism— situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human
existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential-\(<\text{disontologising/re-ontologising—aporeticism}>\) development stages as of the dynamics of social-construct existential-\(<\text{disontologising/re-ontologising—aporeticism}>\) situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential-\(<\text{disontologising/re-ontologising—aporeticism}>\) stages as of a notion of the dynamics of social-construct existential-\(<\text{disontologising/re-ontologising—aporeticism}>\) situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity is thus rather construed as of its overall apriorising/axiomatising/referencing-{of-

The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as knowledge involving the dynamic understanding of both its temporality /misconstrual/subslimation and intemporality /as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity—as subjecting ‘educated-unlimitedness/existence-sublimating–nascence’ to limitedness/human-subpotency dynamics as of deneuterising”—referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality /as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential-<disontologising/re-ontologising—aporeticism> implications of human limited-mentation-capacity—as subjecting ‘educated-unlimitedness/existence-sublimating–nascence’ to limitedness/human-subpotency. Hence language can be more pertinently construed ontologically as of the postconverging/preconverging epistemic—projective-equalisation social dynamics of existential-<disontologising/re-ontologising—aporeticism> meaningness-and-teleology signification than just as of just an outcome privileged institutional end-purpose
perspective/framing/reference/horizon/projection that is in-many-ways ad-hoc and phenomenologically uninsightful as of the many existential-<disontologising/re-ontologising—aporeticism> implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon/projection tend to be in apriorising/axiomatising/referencing- {of- ‘prospectively–implicited_attendant–ontological-contiguity’ } ~educed–
existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity–contiguity-<imbued–notional~cogency’ } = constitutedness ‘in–preconverging entailment. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially-<disontologising/re-ontologising—aporeticism> veridical and effective basis for reflecting ‘historiality/ontological-eventfulness’ /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism–determinism’> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially-<disontologising/re-ontologising—aporeticism> insightful ‘meaningfulness- and-teleology’. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology’ <of–preconverging-existential-extrication-as-of-existential-unthought> ; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality /longness doesn’t take its due place, it is occupied by ignorance as of human temporality /shortness with consequent nefarious ramifications for Being-
historiality/ontological-eventfulness by ontological-aesthetic-tracing <perspective ontological-normalcy/postconvergence-reflected ‘epistemicity-relativism-determinism’>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t comprehensively explicit such a phenomenological depth of apriorising/axiomatising/referencing {of ‘prospectively–implicated_attendant ontological-contiguity ~educed– existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity–contiguity- <imbued–notional–cogency’ } conflatedness in {preconverging ment by} postconverging entailment, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting, {decompulsing}–delinearity~for-cogency~as-to-possibilities-of-self-becoming-as-of ‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon/projection, such that as of a <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology facet it is then already compromising nonpresencing–or–withdrawal/unenframing/re-ontologising–or–metaphysics-of-absence {implicated-epistemic-veracity-of nonpresencing <perspective–ontological-normalcy/postconvergence> } or–
transcendental-reasoning-of-event as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing-{of-'prospectively-implicated_attendant-ontological-contiguity ~educed existentialising/contextualising/textualising 'intelligibility/epistemicity/reflexivity-contiguity-<imbued-notional-cogency> } conflatedness in {preconverging-ment by} postconverging-entailment of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity as-subjecting-educed-unlimitedness/existence-sublimating-nascence to limitedness/human-subpotency has to establish the appropriate ‘perspective/framing/reference/horizon/projection implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing-<perspective–ontological-normalcy/postconvergence> by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting –for–conceptualisation. such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon/projection for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ between presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence> (rather than difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing), and so contradictorily as if both are of the presencing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
constitutedness¹⁴. Consider in this regard that the ‘Derridean quasi-transcendental-freeplay
différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz,
Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—

amplituding/formative–epistemicity totalising–devolved—purview/domain-of-construal-as-

unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental
basis for understanding the new physics as of its prospective relative-ontological-
completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is
more-or-less within the same positivism/rational-empiricism registry-worldview, though it
might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental
human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-

nonpresencing developments in physics since then, even though its meaningfulness-and-teleology
remains intelligible, more or less, to the positive science essentially by the modern conception of
observational and experimental validation. However, the idea of requisite shift in
attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot
be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as
articulated above, construed as of an overall registry-worldview/dimension reference-of-
thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather
‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology\textsuperscript{5}. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme\textsuperscript{5} renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuation-ontological-performance\textsuperscript{5} including-virtue-as-ontology\textsuperscript{5}; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme\textsuperscript{5} of dual-language/split-mentality as of amplituding/formative–epistemicity\textsuperscript{5} totalising–thrownness-in-existence\textsuperscript{5} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{5} including-virtue-as-ontology\textsuperscript{5}). The implied notion of human emancipation is always being articulated in an existentially-disontologising/re-ontologising—aporeticism\textsuperscript{5} dual-language/split-mentality that on-the-one-hand fails the implied emancipation and on-the-other-hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\textsuperscript{th} century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\textsuperscript{th} and 19\textsuperscript{th} centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on-the-one-hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note,
the dual-language/split-mentality associated with the evasiveness of emancipating social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many-ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care—and—episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care—and—episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supercerotogy—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—as-of—preconverging-existential-extrication-as-of-existential-unthought’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care—and—episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential—disontologising/re-ontologising—aporeticism— implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential—disontologising/re-ontologising—aporeticism— implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals
'mental and existential-re-ontologising-aporeticism-investment' into meaningfulness-and-teleology as grounded on a given 'registry-worldview’s/dimension’s reference-of-thought amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential-epistemic-totalisation-of-meaningfulness-and-teleology, as well as the 'psychological comfort' habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional-deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology of preconverging-existential-extrication-as-of-existential-unthought arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing—of—prospectively—implicited_attendant—ontological-contiguity—~educated—existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity—contiguity—<imbued—notional—cogency—‘ conflatedness in {preconverging-ment—by}—postconverging-entailment implication with respect to existence-potency~sublimating-nascence-disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing—<perspective—ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning—from—

But then veridical absolute certainty is ever a promise always held in prospective existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression relative-ontological-completeness—of—apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity—subjecting—duced-unlimitedness/existence sublimating—nascence—to limitedness/human-subpotency prospective relative-ontological-completeness—of—axiomatic-construct-or—reference—of—thought <amplituding/formative—epistemicity> causality—as—to-projective-totalitative—implications—of—prospective—nonpresencing—for—explicating—relative-unreflexivity/relative-reflexivity ontological-contiguity for transcendence-and-sublimity/sublimation/suprerrogatory—dementativity, implied as of intemporal-preservation-entropy—or-contiguity—or—ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness—of—reference—of—thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional—deprocrypticism registry-worldviews/dimensions nonpresencing—<perspective—ontological-normalcy/postconvergence> respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation—universalisation, universalisation—non-positivism/medievalism, and positivism—procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care—and—episteme as of relevant existential—disontologising/re—ontologising—aporeticism issues of all the prior registry-worldviews/dimensions reference—of—thought are wanting—as—relatively—ontologically—flawed from our positivism—procrypticism as prospective perspective/framing/reference/horizon/projection of ‘meaningfulness-and-teleology’. nondisjointedness/entailment-of-prospective-nonpresencing insight translate the reality that
‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue
that they are departing, as of their reference-of-thought, from a less real position to evaluate a
more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and the ‘laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity—as-subjecting-educed-unlimitedness/existence-sublimating-nascence’ to limitedness/human-subpotency as of its existential-disontologising/re-ontologising—aporeticismp analytic capacity’ in a state of prior relative-ontological-incompleteness-of-reference-of-thought. It is human limited-mentation-capacity-deepening—as-subjecting-limitedness/human-subpotency to ‘educed-unlimitedness/existence-sublimating-nascence’ as of prospective relative-ontological-completeness-of-reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing—for-explicating—relative-unreflexivity/relative-reflexivity—ontological-contiguity by existence-potency—sublimating-nascence—disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the
to be deepened before humankind embarks on the task of ‘conceptualising meaningfullness-and-teleology’ that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfullness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening— as subjecting limitedness-human-subpotency—to ‘educed unlimitedness/existence sublimating—nascence’. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness -of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the relative-unreflexivity/relative-reflexivity—ontological-contiguity ~of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfullness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiacal-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon/projection for grasping prospective meaningfullness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity—as subjecting ‘educed unlimitedness/existence sublimating—nascence’ to limitedness/human-subpotency implications from a deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence
constitutedness / illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{7}. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary \textsuperscript{7} human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing\textsuperscript{92} limited-mentation-capacity-deepening— as-subjecting— limitedness/human-subpotency to ‘educed unlimitedness/existence-sublimating–nascence’ to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s \textsuperscript{83} reference-of-thought for \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{99} conceptualisation and ontological-performance -<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity— as-subjecting ‘educed-unlimitedness/existence-sublimating–nascence’ to limitedness/human-subpotency deepens by \textsuperscript{48} human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing\textsuperscript{92}, paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s \textsuperscript{7} reference-of-thought as of its prospective relative-ontological-completeness\textsuperscript{87} of\textsuperscript{83} reference-of-thought in terms of the prior registry-

The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness of reference-of-thought as of a shallower limited-mentation-capacity—as subjecting ‘deuced unlimitedness/existence sublimating–nascent’ to limitedness/human-subpotency (as to ‘waver/moody/redounding waveforming’—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance—<including-virtue-as-ontology>/morality/ethics/justice/etc. as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness of reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness of reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipating-relativism-driven-

do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent causality as-to-projective-totalitative-implications-of-ontological-contiguity’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-a posteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-a posteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its totalising/circumscribing/delineating reference-of-thought–devolving’, which should and cannot be ignored as from the epistemic-projection of prospective preconverging/postconverging–de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a preconverging/postconverging–de-mentative/structural/paradigmatic transcendental knowledge.
establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary-as-unenframed/re-ontologising/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -‘projective-insights’/*epistemic-projection-in-confolatedness ’-of-notional~ deprocrypticism-prospective-sublimation) ) originary/event -of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating ("amplituding-formative>supererogatory–de-mentativeness/epistemic-growth-or-confolatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as inclination to adhere to prospective preconverging/postconverging–de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent amplituding-formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating–relative-unreflexivity/relative-reflexivity—ontological-contiguity’ is very much limited and such prospective ‘concurrent amplituding-formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating–relative-unreflexivity/relative-reflexivity—
ontological-contiguity’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supergatory—de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent <amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-relative-unreflexivity/relative-reflexivity—ontological-contiguity’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective preconverging/postconverging—de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental ‘meaningfulness-and-teleology superseding uninstitutionalised-threshold’ do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent

formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying sterile/anecdotal imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance including virtue-as-ontology/morality/ethics/justice/etc. of any ‘reference-of-thought’/categorical-imperatives/axioms/registry-teleology/-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care—and—episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology of—preconverging-existential-extrication-as-of-existential-unthought” in terms—as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care—and—episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care—and—episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-
disposition/care–and–episteme\textsuperscript{5}, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care–and–episteme\textsuperscript{5}. Ultimately, a 'new/prospective postmodern deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care–and–episteme' crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care–and–episteme, as of deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought is rather a notional~conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness-of-reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own 'postmodern deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care–and–episteme' organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed 'as the appraisal and supplanting

so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity-deepening—-as-subjecting-limitedness/human-subpotency-to–‘educed-unlimitedness/existence-
or-random-mental-disposition’, the reality is that our mental-devising-representation still remains in our ‘present positivism–30 procrypticism attitude/mental-disposition/care–and–
aporeticism scope’. Insightfully, what is critical about the ‘conception of human-subpotency existential <disontologising/re-ontologising—aporeticism> scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care—and—episteme ’ implied notional—deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential <disontologising/re-ontologising—aporeticism> scope’ as of its maximum potency for human subpotent mastery of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening—as-subjecting-limitedness/human-subpotency-to-‘educed-unlimitedness/existence-sublimating–nascence’ has always encountered its uninstitutionalised-threshold all along in reflecting holographically-<conjugatively-and-transfusively> the relative-unreflexivity/relative-reflexivity—ontological-contiguity of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of–meaningfulness-and-teleology and intemporal/longness-of-register-of–meaningfulness-and-teleology nature at uninstitutionalised-threshold, as of
prospective institutionalisation prospective relative-ontological-completeness\textsuperscript{87} -of-\textsuperscript{83} reference-of-thought and uninstitutionalised-threshold\textsuperscript{102} prior relative-ontological-incompleteness\textsuperscript{82} -of- reference-of-thought. This departs from the ‘modern take attitude/mental-disposition/care-\textand-episteme’, which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ instigated relative-unreflexivity/relative-reflexivity—ontological-contiguity\textsuperscript{87} —of-the-human-institutionalisation-process as of difference-conflicatedness\textsuperscript{1} -as-to-totalitative-reification-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>-as-veridical-epistemicity-relativism-determinism implied <amplituding/formative-epistemicity>causality —as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-relative-unreflexivity/relative-reflexivity—ontological-contiguity', as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology psychologismic-epistem-acutisation—difficulty <for, residualising-{decompulsing}-delinearity—for-cogency>——-magnitude<of-experientiality/experiment> and is rather caught up, beyond-the-consciousness-awareness-teleology‘<of-preconverging-existential-extrication-as-of-existential-unthought>, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential <disontologising/re-ontologising—aporeticism> emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness\textsuperscript{82} -of-\textsuperscript{83} reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold\textsuperscript{12} which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{12}. Consequently, by assuming such a
positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential-disontologising/re-ontologising-aporeticism emancipation, the ‘modern take attitude/mental-disposition/care-and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential-disontologising/re-ontologising-aporeticism’ scope that is construed essentially as-of-amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality–shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal-longness-of-register-of-meaningfulness-and-teleology posture in amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential-disontologising/re-ontologising-aporeticism’ scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the-very-same-

metaphoricity57 relaying scientists were still imbued with non-positivism/medievalism mystical
and alchemic ideas. This ‘out of thin air’ metaphoricity57 possibility arises because the ‘full-
potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-
potency of existence’ is ever one of nonpresencing-perspective–ontological-normalcy/postconvergence; as the very notion of ‘human-subpotency-as-human-knowledge
grasp of the full-potency of existence’ given human limited-mentation-capacity as subjecting–
educed–unlimitedness/existence-sublimating–nascence–to–limitedness/human-subpotency
implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’
for new human existential-disontologising/re-ontologising–aporeticism and knowledge
possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the
full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-
results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental
possibility in the full-potency of existence’. Such that by dispensing-with-immediacy-for-

Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supercogency—de-mentativity implied "meaningfulness-and-teleology", we can appreciate that the foremost goal of budding-positivists 'was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in-many-ways they adopted a 'presencing—absolutising-identitive-constitutedness' consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprecrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness' consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional~ deprecrypticism institutionalisation as of re-ontologising prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—meaningfulness-and-teleology. In both cases, the prospective institutionalisation attitude/mental-disposition/care—and—episteme is ontologically validated as of its prospective relative-ontological-completeness of reference—

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting metaphoricity\textgreater for prospective institutionalisation as of prospective \textit{amplituding-formative-epistemicity}\textgreater causality\textsim as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-relative-unreflexivity/relative-reflexivity-ontological-contiguity\textless and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting metaphoricity\textgreater reinvigoration as of the overall renewal of ‘the-very-same physics\textit{amplitunding-formative-epistemicity}\textgreater totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity\textgreater rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology\textgreater, which in its prospective relative-ontological-completeness\textsim of-reference-of-thought is the ‘dimensionality-of-sublimating\textless (<\textit{amplituding-formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation}) inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking’—apriorising-psychologism’ as positivism/rational-empiricism thinking or
deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory-de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent causality as-to-projective-totalitative-implications-of-prospective nonpresencing,-for-explicating–relative-unreflexivity/relative-reflexivity—ontological-contiguity in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus such metaphoricity as of its reasoning-through/messianic-reasoning is more aptly and consciously articulated at a dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor—in-overcoming—‘notional–collateralising-beholdening-protohumanity’-to—‘attain-sublimating-humanity’-as-to-existence-potency —sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness wooden-language (imbued—averaging-of—thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as—of—‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>) depth/profoundness of human posterity; projecting well beyond the narrow and decadent obsessions of shallow as of extricatory/temporal preconverging–de-mentating/structuring/paradigming of social-stake-contention-or-confliction, as it actively

Thus the direct implication of reasoning-through/messianic-reasoning is that it can only call upon a ‘kindred sense of things’, as of dimensionality-of-sublimating

These induced transcendence-and-sublimity/sublimation/supererogatory-de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-
aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipating inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,–as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal/unenframing/re-ontologising,-elicited-from-prospective–profound-supererogation and so as of prospective projection as implied with the relative-unreflexivity/relative-reflexivity—ontological-contiguity~of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation-unforegrounding-ment,-failing-prospectively-to-reflect-‘immanent–relative-unreflexivity/relative-reflexivity—ontological-contiguity’ notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the-very-same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting—for-conceptualisation’ failing to conceive of the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the relative-unreflexivity/relative-reflexivity—ontological-contiguity~of-the-human-institutionalisation-process dimensionality-of-sublimating<{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}> as to difference-conflatedness₁-as-to-totalitative-reification-in-

Thus <amplituding/formative> wooden-language-{imbued—averaging-of-thought—as-to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’-with-regards—to—prospective—apriorising—implications> is herein rather construed as <amplituding/formative> wooden-language-{imbued—averaging-of—thought—as-to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as—of—’nondescript/ignorable—void ’-with-regards—to—prospective—apriorising—implications> or ontological-bad-faith/inauthenticity with respect to ‘mechanical practice’ of prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of—aestheticisation. In this regards, we can appreciate that all human ‘meaningfulness-and—teleology’ arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance—including—virtue—as—ontology. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical,
scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in-many-ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language<(imbueduct averaging-of-thought<as-to- leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>)}); pointing to the centrality of originariness-parrhesia,–as–spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given

It is thus not odd that as of human emotional-involvement implications, Socratic-philosophers\(^{103}\) universalising-idealisation and budding-positivists projected meaningfulness-and-teleology\(^{99}\) infrastructure rather met initially with the antipathy of their underpinning-suprasocial-construct and \(\langle\text{amplituding/formative}\rangle\) wooden-language\(\langle\text{imbued—averaging-of-thought—}\langle\text{as-to-leveling/ressentiment/closed-construct-of—}\) meaningfulness-and-teleology\(\rangle\text{ as-of—nondescript/ignorable—void \(\rangle\text{—with-regards-to-prospective-apriorising-implications}\rangle\}\) and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive-constitutedness ontologically-flawed disparateness-of-conceptualisation\(\langle\text{unforegrounding-ment,—failing-prospectively-to-reflect—immanent—relative-unreflexivity/relative-reflexivity—ontological-contiguity}\rangle\) whether with the ancient-sophists or medieval-scholasticism pedants. worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’; wherein social–value-construction across the <cumulating/recomposuring~attendant–ontological-contiguity>-successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment ~<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigm~as-being-as-of-existential-reality> and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the relative-unreflexivity/relative-reflexivity—ontological-contiguity ~of-the-human-institutionalisation-process points to changing ‘preconverging/postconverging–de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the preconverging/postconverging–de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent preconverging/postconverging–de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of
‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of causality as-to-projective-totalitative-implications-of-prospective nonpresencing,-for-explicating relative-unreflexivity/relative-reflexivity—ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on-the-other-hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality as-to-projective-totalitative-implications-of-prospective nonpresencing,-for-explicating relative-unreflexivity/relative-reflexivity—ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted
media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating eventfulness /ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity–relativism–determinism’> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment ~implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming —as-being— as-of-existential-reality> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification~gesturing-and-accounting—of-epistemic–phenomenalism—<in-prospective_psychologismic~apriorising/axiomatising/referencing—of—‘prospectively–implicated_attendant–ontological-contiguity }—implied—notional~cogency’>—conflatedness in—{preconverging-ment–by}—postconverging-entailment> of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of
disparateness-of-conceptualisation—unforegrounding—ment—failing—prospectively—to—reflect—immanent—relative-unreflexivity/relative-reflexivity—ontological-contiguity—as-operative-notional—deprocrypticism}; and so as the

The occlusivity of our positivism/rational-empiricism social—value-construction as such from the prospective perspective of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought can be analysed—and—construed as imbued with occlusive collateral aspects of rather nondescript/ignorable—void falsely implying the ‘appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern—thought. Such occlusive—collateral aspects take the form of economic dysfunction and inequities as occlusively—collateral to economic ideologism, social dysfunction and discriminations as occlusively—collateral to domineering and excluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured—and—deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed—contrived—and—limited stakes of the democratic process thus eliciting protest voting, and in the
bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is preconverging/postconverging–de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance -<including-virtue-as-ontology>/morality/ethics/justice/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-{uninstitutionalised-threshold /presublimating-desublimating-decisionality}–of-ontological-performance -<including-virtue-as-ontology>/morality/ethics/justice/etc. dynamics of notional–firstnatures–formativeness-<as-to-eventualising–inking-drive-or-seeding-misprising>—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normaley/postconvergence>’ ).

But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity—as-subjecting-'educed-unlimitedness/existence-sublimating-nascence'-to-limitedness/human-subpotency exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation inducing its deficient ontological-performance -<including-virtue-as-ontology>/morality/ethics/justice/etc. thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the <cumulating/recomposuring~attendant–ontological-contiguity >-successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the relative unreflexivity/relative-reflexivity—ontological-contiguity ~of-the-human-
institutionalisation-process is critically of dimensionality-of-sublimating\(\langle\text{amplituding/formative}\rangle\) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness\(\langle\text{transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\-equalisation}\rangle\) psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications of dispensing-with-immediacy-for-relative-ontological-completeness\(\langle\text{amplituding/formative}\rangle\) sublimating-humanity-as-to-existence-potency\(\langle\text{amplituding/formative}\rangle\) sublimating-nascence-disclosed-from-prospective-epistemic-digression to supersede human temporality\(\langle\text{amplituding/formative}\rangle\) wooden-language\(\langle\text{imbu}ed\-\text{averaging-of-thought}\-\text{as-to-leveling/ressentiment/closed-construct-of-}\text{meaningfulness-and-teleology-as-of-}\text{nondescript/ignorable-}\text{void-with-regards-to-prospective-apriorising-implications}\rangle\) as of successive human construction-of-the-Self as from based animality to trepidatious-self-consciousness, warped-self-consciousness, preclusive-self-consciousness, occlusive-self-consciousness and prospectively protensive-self-consciousness. Thus human limited-mentation-capacity—as-subjecting-'educed-unlimitedness/existence-sublimating-nascence'-to-limitedness/human-subpotency implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social-value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup\(\langle\text{universal-transparency}\rangle\) universal-transparency\(\langle\text{transparency-of-totalising-entailing-as-to-entailing}\rangle\) of supposedly coherent ontological-commitment \(\langle\text{implied—self-assuredness-of-ontological-good-faith/authenticity}\-\text{postconverging—dementating/structuring/paradigming-as-being-as-of-existential-reality}\rangle\) with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such\(\langle\text{universal-transparency}\rangle\) universal-transparency\(\langle\text{transparency-of-}

Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency, -sublimating-nascence, -disclosed-from-prospective-epistemic-digression as to existence — as-the-absolute-a-priori-of-conceptualisation — and — existence — as-sublimating-withdrawal/unenframing/re-ontologising, -elicited-from-prospective—profound-superoeration — as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming', and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting holographically—<conjugatively-and-transfusively> the relative-unreflexivity/relative-reflexivity—ontological-contiguity — of-the-human-institutionalisation-process dimensionality-of-sublimating

will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in-many-ways such a notion of ‘implications of deferential-formalisation-transference as being preconverging/postconverging–de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with the ‘protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In-many-ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather preconverging/postconverging–de-mentative/structural/paradigmatic
to the overall politico-institutional system itself; and particularly so as in-many-ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness\(^7\)/relative-ontological-completeness\(^8\)\((\text{sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness} /\text{formative–supererogating}<\text{projective/reprojective–}\)aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) \(<\text{amplituding/formative–epistemicity>}\text{causality ~as-}\text{to-projective-totalitative–implications-of-prospective–nonpresencing,–for–}\text{explicating–relative-unreflexivity/relative-reflexivity—ontological-contiguity}\)\] in reflecting holographically\(<\text{conjugatively-and-transfusively}>\) the relative-unreflexivity/relative-reflexivity—ontological-contiguity of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism\(^9\) procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery
in institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in-many-ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant competence/expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifuly and strategically prejudiced influences on media orientation. In this
regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening—as subjecting limitedness/human-subpotency to ‘educed-unlimitedness/existence-sublimating-nascence’ as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness as (sublimating-referencing/registering/decisioning—as-self-becoming/self-conflatedness /formative-supererogating<-projective/reprojective—aestheticising-re-motif-and-re-apriorising/re-axiomatising/re-referencing,-in-perspective—ontological-normalcy/postconvergence>)} as to human-and-social–expectations/anticipations—metaphoricity’–as-preconverging/postconverging–redemmentating/restructuring/reparadigming–psychologism’ for knowledge-reification–gesturing-and-accounting—of-epistemic–phenomenalism-<in-

which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} and so on the basis of merely projecting the term ‘human social-vestedness/normativity-$<$discretely-implied-functionalism-$>$ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-$<$discretely-implied-functionalism-$>$ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all ‘meaningfulness-and-teleology’ (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-$<$discretely-implied-functionalism-$>$ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of ‘implicited_attendant-ontological-contiguity’~educed–existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity–contiguity-$<$imbued–notional–cogency>$^{140}$ thus subject to analysis as of ‘relative-ontological-incompleteness\textsuperscript{89}/relative-ontological-completeness’~

Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness⁴ notion of ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness⁷ as what is then implied from the relative-ontological-completeness⁷ perspective is the supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting—for-conceptualisation in unaffirmation/deprojection/deassertion/epistemic-decadence/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing—apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that
this is priorly a ‘power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity＜discretely-implied-functionalism＞ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness7 perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/deassertion/epistemic-decadence/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring＜as-to-preconverging-or-dementing＞apriorising-psychologism＞ of any such implied slavery ‘human social-vestedness/normativity＜discretely-implied-functionalism＞ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity＜discretely-implied-functionalism＞ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence7 with the possibility for true causality implications to be drawn in relative-ontological-completeness7 as of ＜amplituding/formative–epistemicity＞causality＜as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating−relative-unreflexivity/relative-reflexivity—ontological-contiguity＞ construable ‘preconverging/postconverging–dementative/structural/paradigmatic implications of relative-ontological-completeness7 in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity＜discretely-implied-functionalism＞ implied
contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’
which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by

In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity–discretely-implied-functionalism–implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity—as-subjecting–educed-unlimitedness/existence-sublimating–nascence–to-limitedness/human-subpotency as to human limited-mentation-capacity-deepening—as-subjecting-limitedness/human-subpotency–to–educed-unlimitedness/existence-sublimating–nascence–possibilities of relative-ontological-completeness\textsuperscript{37} analysis over the absolutising of ‘human social-vestedness/normativity–discretely-implied-functionalism–implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’

This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in-the-very-first-place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness-formativeness—as to eventualising—inkling—drive—of—seeding—misprising—temporal—to-intemporal-dispositions—<so—construed—as—from—perspective—ontological-normalcy/postconvergence>’—existentialism—form—factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency~sublimating–nascence,—disclosed—from—prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/untought-of driven existential—disontologising/re—ontologising—aporeticism—emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a
‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology<of–preconverging-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development psychologismic—epistemic-acutisation—difficulty<for, residualising—decompulsing>delinearity—for-cogency> magnitudes<of-experientiality/experiment>; and in-many-ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected—epistemicty-relativism-determinism> relevant to deprorypticism—or—preempting—disjointedness-as-of-reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—
formativeness—<as to eventualising—inkling drive or seeding misprising>—temporal-to-intemporal-dispositions—so construed as from perspective—ontological-normalcy/postconvergence—existentialism-form-factor; and so in all situations particularly those poorly constrained to existence-potency—sublimating—nascence—disclosed from-prospective—epistemic—digression. Such that such ontologically-flawed presencing—absolutising—identitive—constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes—contention—confliction framework; with the consequence that this mitigates the possibility to broaden—the—latitude—of—human—collective—consciousness off—the—beaten—path of historicity—transposing—in—presencing—hyperrealisation/hyperreal—transposition (as of Being—development/ontological-framework—expansion—as—to—depth—of—ontologising—development—as—infrastructure—of—meaningfulness—and—teleology, institutional—development—as—to—social—function—development and living-development—as—to—personality—development psychologismic—epistemic—acutisation—difficulty—residualising—delinearity—for—cogency magnitudes{of—experientiality/experiment}) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended—to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising—identitive—constitutedness—of—
meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now preconverging/postconverging—de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development psychologismic—epistememic-acutisation—difficulty <for, residualising—delinearity for cogency> magnitudes{of-experientiality/experiment}) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective of re-originariness/re-origination as implied with prospective {deprocrypticism—or—preempting—disjointedness-as-of—} reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in-many-ways traditional social-and-institutional-frameworks-of—referencing/registering决策ing are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness’—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In-many-ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’
meaningfulness-and-teleology the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology ); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology<-elicited–idiomatisation> increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology<-elicited–idiomatisation> as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of a ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology’ given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’. postconverging—entailment> the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness—and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in-many-ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case
for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presentings—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework’/‘historiality/ontological-eventfulness’/‘ontological-aesthetic-tracing’ was developed and encultured/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a flawed prior knowledge-reification~gesturing-and-accounting—of-epistemic—phenomenalism~in- prior_psychologismic~apriorising/axiomatising/referencing—of—prior—implicated_attendant—ontological-contiguity ‘~educated— existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity—contiguity—<imbued—notional—cogency>’—constitutedness—in—preconverging—entailment— exercise that doesn’t factor in human limited-mentation-capacity-deepening—as-subjecting— limitedness/human-subpotency-to—‘educated—unlimitedness/existence—sublimating—nascence’ as of ‘relative-ontological-incompleteness’/relative-ontological-completeness ⟨sublimating—referencing/ registering/decisioning—as-self—becoming/self— conflatedness/formative—supererogating—<projective/reprojective—aestheticising—re-motif— and—re-apriorising/re—axiomatising/re—referencing,—in—perspective—ontological— normalcy/postconvergence⟩ as to human-and-social—expectations/anticipations— metaphoricity—as—preconverging/postconverging—redem— mentating/restructuring/reparadigming—psychologism as to <amplituding—formative—

This in-many-ways explains why ultimate responsibility/relative-reflexivity lies with the abstract individual as to the requisite human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor—in-overcoming—‘notional~collateralising-beholdening-protohumanity’–to—‘attain-sublimating-humanity’–as-to-existence-potency —sublimating—nascence,—disclosed-from-prospective-epistemie-digression to supersede human temporality/shortness

Interestingly, in this regards in-many-ways the relative-unreflexivity/relative-reflexivity—ontological-contiguity ~of-the-human-institutionalisation-process possibility is hardly just

It speaks to a metaphoricity potentiation imbued in humankind defined by ‘human lack-of-capacity/capacity for dispensing-with-immediacy—for-relative-ontological-completeness—by-reification/contemplative-distension’ as this relates to preconverging-existential-extrication-as of existential-unthought/postconverging-nonextricatory-existential-preempting-of existential-unthought. In this regards, human growth (with regards to human Being-development/ontological-framework-expansion—as to depth-of-ontologising-development-as infrastructure of—meaningfulness and teleology, institutional-development—as to social-function-development and living-development—as to personality development psychologismic—epistemic—acutisation—difficulty—for residualising—delinearity—for cogenency—magnitudes (of experientiality/experiment)) is ever always about ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’. Insightfully, the relative-unreflexivity/relative-reflexivity—ontological-contiguity—of-the-human-institutionalisation-process is a reflection of the fact that any given

thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency\(^2\)-sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the relative-unreflexivity/relative-reflexivity—ontological-contiguity\(^7\)-of-the-human-institutionalisation-process\(^8\). But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies-{in-transitive-confoundedness – reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence} to then ‘utilise the clout to falsely imply substitutive/reductionist sublation over the social and socio-psychological phenomenal/manifest-subpotencies-{in-transitive-confoundedness – reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence}’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘amplituding/formative—epistemicity>totalising/circumscribing/delineating necessitation frame—of—relative—

Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening—as subjecting limitedness/human-subpotency to ‘educed-unlimitedness/existence-sublimating–nascence’’ speak to the more profound reality that the ordinariness of human thought across the <cumulating/recomposuring~attendant–ontological-contiguity >succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their ‘presencing—absolutising-identitive-constitutedness’ as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory–dementativity can occur in-the-very-first-place (in contradiction to all such registry-worldviews/dimensions failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring).

The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression and preconverging/postconverging–dementatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation-\<unforegrounding-ment, failing-prospectively-to-reflect-‘immanent–relative-unreflexivity/relative-reflexivity—ontological-contiguity\>; and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised sterile/anecdotal imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory—of-relativity—together—with—quantum—mechanics—axiomatic—constructs perspective over the prior institutionalised/classical—mechanics—axiomatic—constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains-of-study need to account for their sublimating pertinence; and the possibility of putting-into-question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness ’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-

the former are nothing but sophistic/pedantic exploitations of human limited-mentation-

with regards to human meaningfulness-and-teleology (as to human Being-

terms to imply that existence (as to existence-potency ~sublimating–nascence,-disclosed-from-
prospective-epistemic-digression) is the 'scalar conception that enables prospective human
sublimation as of aestheticisation-towards-ontology' while on-the-other-hand human-subpotency (as to human

<amplituding/formative–epistemicity>totalising–self-referencing-

prospective human desublimation aestheticisation'. The 'scalarity/immanency of existence’s
prospective desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening—as-subjecting-limitedness/human-subpotency to ‘educed-unlimitedness/existence-sublimating—nascence’ (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity—as-subjecting—‘educed-unlimitedness/existence-sublimating—nascence’—to limitedness/human-subpotency (however the ‘better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance—including-virtue-as-ontology>/morality/ethics/justice/etc. (associated with prospective human sublimation) into: a ‘scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’ and a ‘non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-dentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation— perspective (with regards to relative-unreflexivity—in-existence/absolutising—from limited-mentation/psychologismic—epistemic-acutisation—nonresidualising-imbued—linearity—in-eclecticism-of-prior-mere-formulaicity/ritualisation residual human ontological-deficiency implications as to relative human limited-mentation-capacity—as-subjecting—‘educed-unlimitedness/existence-sublimating—nascence’ to limitedness/human-subpotency notwithstanding the ‘better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Uncontemplative-distension is thus rather the recognition that human dispensing-
with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential—disontologising/re-ontologising—aporeticism—dimensionality-of-sublimating

mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ underlying prospective human ontological-performance\(^{21}\)<including-virtue-as-ontology>/morality/ethics/justice/etc. with regards to human \(^{60}\)meaningfulness-and-teleology\(^{9}\) speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the preconverging/postconverging–dementative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening—as-subjecting-limitedness/human-subpotency-to-‘educed-unlimitedness/existence-sublimating–nascence’\(^{\perp}\) in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-(as-to-underlying,-ontological-commitment -<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality>) is strongly prone to desublimating ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening<as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness\(^{14}\), while the former strongly constrained to high predicative-effectivity–sublimation-(as-to-underlying,-ontological-commitment -<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality>) is rather relatively amenable to sublimating \(^{40}\)historiality/ontological-eventfulness\(^{3}\) /ontological-aesthetic-tracing-
<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism–
determinism’ as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In-many-ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism>). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s–sublimating–nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional~deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human 83 reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human 83 reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective preconverging/postconverging–de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal/unenframing/re-ontologising,-elicited-from-prospective–profound-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturizing institutionalisation purpose ‘is overrated with regards to the challenge of human postconverging–apereticism–overcoming/unovercoming
at prospectively uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism preconverging/postconverging—dementative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal/unenframing/re-ontologising—elicited-from-prospective—profound-suprerogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.).

In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicuses, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-

This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning–suprasocial-construct as to dominance/vested-interest—drivenness<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness <preconverging—‘motif-and-apriorising/axiomatising/referencing’–entailing>–existentialising—enframing/imprintedness; (as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) of social-vestedness/normativity<discretely-implied-functionalism> and social-stake-contention-or-

The implication here is that the ‘ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming’ existential-condescension—{of—apriorising/axiomatising/referencing—psychologism}’ is thus merely

This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not of prospective apriorising/axiomatising/referencing—sublimating-reflexivity—beholdening to human appreciation of the existential<disontologising/re-ontologising—aporeticism> implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’
existential-condescension-of-apriorising/axiomatising/referencing–psychologism’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance -<including-virtue-as-ontology>/morality/ethics/justice/etc. state failing to factor in human specific apriorising/axiomatising/referencing-of-‘prospectively-implicated_attendant-ontological-contiguity ’-educated—existentialising/contextualising/textualising ’intelligibility/epistemicity/reflexivity–contiguity—<imbued–notional~cogency>’—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>-totalising–thrownness-in-existence ’ but together with the extraterrestrials is rather preconverging/postconverging–de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment -<implied—self-assuredness-of-ontological-good-faith/authenticity -postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of 'presencing—absolutising-identitive-constitutedness' articulated induced elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—‘prospectively–implicated_attendant-ontological-contiguity’ –educated—existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity–contiguity—<imbued–notional~cogency>’

Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness is-educated–and–avails–and–re-avails rather than ontological-bad-
faith/inauthenticity\textsuperscript{64} in upholding relative-ontological-incompleteness\textsuperscript{88} (given that immortality/existence-perspective as to intemporality\textsuperscript{72} cannot be construed as arising from our prior mortals whims superseding of existential \textsuperscript{disontologising/re-ontologising—aporetic} sublation entailment and such presumption rather speaks to preconverging-or-dementing\textsuperscript{20}—apriorising-psychologism and not postconverging-or-dialectical-thinking\textsuperscript{1}—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicit-sublation-over-desublation that explains why the educing—and—availing—and—re-availing of relative-ontological-completeness\textsuperscript{87} as to \textlangle amplituding/formative—de-mentativeness/epistemic-growth-or-conflatedness /transvalative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation \textrangle as to dimensionality-of-sublating\textsuperscript{23} takes precedence in defining human intellectual-and-moral ontological-performance

This \textlangle amplituding/formative—epistemicity\textrangle—totalising—thrownness-in-existence\textsuperscript{35} implied existential-discursivity—implicit-sublation-over-desublation as to ‘ontological-good-faith/authenticity\textsuperscript{69}—postconverging—dementating/structuring/paradigming\textsuperscript{70} existential-condescension—\langle of-apriorising/axiomatising/referencing—psychologism\rangle’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness—\langle metaphoricity—disposition—as-to-psyche-induced-psychologism-of-existential-stake\rangle from which human \langle meaningfullness-and-teleology\rangle\textsuperscript{99} veridically arises. Thus existential-discursivity—implicit-sublation-over-desublation implies that the human is already ‘preconverging/postconverging—dementatively/structurally/paradigmatically intellectually-and-morally existentially—
<disontologising/re-ontologising—aporeticism> engaged as to its limited-mentation-capacity—as-subjecting-‘educed-unlimitedness/existence-sublimating-nascence’-to-limitedness/human-subpotency’ without any ‘neutrally/objectively sound human ontological-performance’ -<including-virtue-as-ontology>/morality/ethics/justice/etc. state failing to factor in human specific apriorising/axiomatising/referencing-{of-‘prospectively-implicated-attendant-ontological-contiguity ’~educed- existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity-contiguity-<imbued–notional~cogency’}—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>-totalising–thrownness-in-existence’. This insight puts into perspective our 70-presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility/relative-reflexivity wherein supposedly failed/unsuccesful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility/relative-reflexivity (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation-<ontological-veridicality_commitment/otherliness_transcending/compulsions-encumbered_transcending> posturing) without factoring in that the ‘social-setup’s relative-ontological-incompleteness’ specific apriorising/axiomatising/referencing-{of-‘prospectively-implicated-attendant-ontological-contiguity ’~educed- existentialising/contextualising/textualising ‘intelligibility/epistemicity/reflexivity-contiguity-<imbued–notional~cogency’}—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>-totalising–thrownness-in-existence’ is not of
neutrally/objectively sound ontological-performance including-virtue-as-ontology; as to the fact that for instance the incidence of modern-day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that preconverging/postconverging–de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our totalising–thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating rationalising/transepistemicity/ananamstic-residuality/spirit-drivenness–equalisation. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, existential-discursivity—implicitly-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigmizing existential-condescension–of-apriorising/axiomatising/referencing–psychologism’, thus points to the primacy of the ‘very totalising–thrownness-in-existence’ of human discursivity as to the possibility for prospective existential sublimation’ so-reflected in originariness-parrhesia,—as—spontaneity-of-aestheticisation—supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness projection as to overall existential dimensionality-of-sublimating.
The bigger point here is that prospective human sublimation underlying prospective knowledge-reification—gesturing-and-accounting—of-epistemic-phenomenalism—<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-

of the human institutionalisation-process is existentially—disontologising/re-ontologising—aporeticism—susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism—of-social-functioning-and-accordance social implications ultimately leading to subsequent human methodologising/ mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall postconverging—dementating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness — reference-of-thought-devolving’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human postconverging—aporeticism—overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival/advantage relationship with nature (say for instance having technically...
more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness presublimation-construct-of meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in-many-ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation (as-to-underlying,-ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity postconverging—de-mentating/structuring/paradigming as-being-as-of existential-reality)’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the ‘enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness presublimation-construct-of meaningfulness-and-teleology value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising preconverging—‘motif-and apriorising/axiomatising/referencing’—entailing—existentialising—enframing/imprintedness (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate
subsistence/survival/advantage. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the postconverging—apereticismoevereoming/unovereoming challenge of the immediate material and technical possibilities of sublimation. In-many-ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘ historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology of our positivism—procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in-many-ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination—{so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence} perspective of notional—deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-

that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern-day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’). Even in the purely intellectual sense, modern-day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve

We can for instance appreciate this ‘human existentialising—decisionality—as to disontologising/re-ontologising—aporeticism’ dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating—nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic—meaningfulness-and-teleology) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of crossgenerational appreciation/grasp (given the non-positivistic—presencing—absolutising-identitive-constitutedness existentialising—

Along the same lines of disambiguating ‘human existentialising–decisionality—\textit{as to disontologising/re-ontologising—aporeticism}—dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as a ‘God-of-plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting–for–conceptualisation induced psychologism of ‘reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysettingup/measuringinstrumenting–for–conceptualisation psychologism of ‘reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic ‘meaningfulness-and-teleology’ ‘more profound reflection of existence—as-sublimating-withdrawal/unenframing/re-ontologising,—elicited-from-prospective–profound-supererogation’ with regards to sublimating–nascence \textit{teleological-inflection—(as to more profound nondisjointing)—amplituding/formative–epistemicity—totalising/circumscribing/delineating}, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations—\textit{blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving} as underlying many a technical and natural sciences it is ever always the ‘more profound reflection

In our modern-day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic⟨preconverging/shallow-

In-many-ways the very idea of the ‘democratic public-debate’
itself is skewed from its very inception as to dominance/vested-interest natural ascendency over the ‘supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct <preconverging–‘motif-and-apriorising/axiomatising/referencing’–entailing>–existentialising—enframing/imprintedness> (as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in-many-ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In-many-ways, it is the critical and genuine social intellectual–function/posture as to such postconverging–aporeticism–overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not).
